

Mr Thao-

Item 21 is the definition of family as it concerns people living at the same address. I believe that there needs to be an exception for student housing for any of the universities located within the city limits of St. Paul. 9 people in a house seems a bit much when it is students. Attending university is not a cheap occupation. Students will "crowd" in to save money. This ordinance will not be a good idea. Limiting the number of students to 4 and not increasing it to 6 is a better idea and should apply to ALL the universities and not just St. Thomas.

Thank you.

KC Cox
