Good Morning Stephen,

How long ago was the elm removed? If it was a while ago, costs for tree removal have increased since then. Also, the willow was considered dangerous. It had extensive decay at the base and was close to your neighbor's house as well as communication lines underneath which required special equipment and planning.

Hope this helps,

Karl

Good Morning Stephen,

I was the forester that came out and marked the willow in your backyard. I heard you'll be appealing and was wondering if I can help?

Thanks,

Karl
