

RES 20-1263    3/8/2021 9:25 PM    Nick Rice    Against

Both of my children attend charter schools because they provide a much better, and more individualized education. Frankly, I toured all of the St. Paul public schools near my house and would not want to send my children to any. Charter schools are already providing this education with less money than SPPS receives per pupil. Passing this resolution would harm the ability of my children's schools to provide the high quality learning environment and experiences that they have been getting. The teachers already make less money than SPPS teachers...how are they supposed to live with their salaries, these teachers are dedicated to helping students and not concerned with the money....but they need a living wage. Inflation goes up and teacher salaries remain stagnant. Charter Schools ARE public schools, why do you want to take money away from our children!!!
