---

Dear Council Members,

I am writing as a current public school teacher in Ward 4 and former resident of Ward 1. I call on you to vote NO on the Atlatus appeal, and stop the development of unaffordable housing at the corner of University and Lexington. I ask this in solidarity with community members at risk of being displaced and priced out of their homes and community if this development goes through. I ask you to leverage your power, privilege, and voice to support the communities, families, and constituents you serve. I ask you to listen to those most impacted, those with the least power, those most vulnerable, and those with an informed vision for building community in this space.

Thank You,

Nadine McNiff
