Re: Griggs/Scheffer Area Paving and Lighting Phase II (2021)  
File # 19233 Property address: 1605 Edgcumbe Road, St. Paul, MN 55116  
Parcel ID# 15-28-23-12-0013

To whom it may concern:

This letter is related to document noted above and the electronic meeting on April 14, 2021. In it is the statement: The ESTIMATED assessment for the above property is \$12,282.03.

With regard to the large project:

- Our home sits on the corner of Edgcumbe Road and Bohland Place, fronts on Edgcumbe Road, on a wide street. That portion of our lot already has a street light.
- Inserting a paved sidewalk on the front of our lot on Edgcumbe Road unnecessarily intrudes on our front lawn and will cause us to incur further substantial expense to re-configure our front lawn.
- The center of Edgcumbe Road is a grassy boulevard wide enough to accommodate a walking path and would be an alternative to what is proposed.
- Bohland Place, the second part of the proposal, already has a sidewalk and a street light, and so no change is needed.

Accordingly, we ask that you re-consider the changes you propose and that we be relieved of this substantial assessment.

Yours truly,

*Laurence A. Savett*

*Susanne G. Savett*
