Dearest City Council –

Regarding the approval of the assessment and adoption of the assessment roll for 2020 Street Maintenance Service Program – Sealcoating Street and/or Alley concerning our property at 404 Dayton Avenue, 55102...

Considering our street between Arundel and Western during hours of operation for the businesses on Selby, primarily Handsome Hog and Red Cow, and that our street becomes a parking lot for the employees and patrons of those establishments, making it nearly impossible for us to park near our homes, it feels more appropriate for a portion of this assessment, as well as our property taxes be collected by St. Paul from those mentioned businesses while the Council subsequently constructs a solution addressing these concerns.
