Hi. My name is Deborah Gutzman GUTZMAN. I'm calling regarding assessment number 195600, Property ID 07-28-22-14-0144, properties at 114 King Street West. I am being assessed a sum of over $500 on an alley that I've been living on for almost thirty years that hasn't been touched. At most we get little globs of sealant put here and there, but this alley is so broken up, great big divots, and we have it very slippery all winter long. I've been here for over thirty years. I tried to send an email to the email option that you give here. My email was blocked and I'm not really sure why. I sent examples of what this alley looks like and if you're getting five hundred dollars from each of us on the street, I know some of my other neighbors have asked the same thing : Where is that money going? It can't take that much for the little bit that they're doing in here if they do anything at all. I'm just really curious as to why I'm paying $503 when my alley is just so broken up and it's so so hazardous in the winter because it's so slippery that even the trash people and the recycling people don't want to come through. So, my email address is debgutzman@gmail.com and my phone number is 651-402-3426. I was given a date and time which I do work for health care, but I guess I'll have to take time off so I can be part of this electronic meeting on May the 5th at 3:30. I will be there. I wish I could bring in some more of my other neighbors who are also home owners who are also saying that this is a ridiculous amount for the little bit that they're doing in our alley. So I would really appreciate some feedback because I do want to take it on to our representatives as well. Thank you and have a great day.
