---

Hello, my name is Dan Yatch. It's that's why I you DCHITZ I'm a resident at 816 Carol Ave in Saint Paul. I'm the homeowner and I'm giving a call to you all regarding the assessment that I received on my property. The number on that is 205600. And the reason I think this is worthy of an appeal is that this policy, the way that you charge right now, is really putting an unfair burden on homeowners like ourselves who live on corners were being assessed for a street that is public. It's not private property. This road is used equally by all people in the neighborhood, so I'm not sure why we are being asked to pay substantially more. This puts an unfair financial hardship on us and our neighbors, and believe for living on a corner. Thank you for hearing this appeal. I hope you consider reducing the assessed amount to be more in line with adjacent properties, who all share the use of this road instead of singling out homeowners to pay additional charges. Thank you.
