RES PH 21-118    Version: 1

I am strongly in support of council member Noecker's resolution to deny this request. The skyway is VITAL community passage for residents and visitors for St. Paul services, businesses, amenities and quality of life. Disabled persons more than any one RELY on this access for their daily life activities. Those of us owning homes in Lowertown know our property values depend on reliable and uninterrupted skyway access. The skyway is PART OF OUR NEIGHBORHOOD and a three year closure is completely unacceptable. ANY temporary closure of ANY part of the skyway should be communicated in ADVANCE to all residents, businesses, and posted for visitors. These temporary closures should be as infrequent and short as possible.
