License Application Summary for License ID# 20190001657, Arcade Auto Body LLC, doing business as Arcade Auto Repair and Arcade Auto Sales, Charles Belcher, owner, 651-230-1145

1346 Arcade St, Ward 6

Add an Auto Repair Garage and Second Hand Dealer - Motor Vehicle license to the existing Auto Body Repair/Painting Shop license

CONDITIONS #1 - 9 PER NONCONFORMING USE PERMIT #2020-096344:

1. The garage addition behind the house at 1334 Arcade, approved in 1992 to provide classic car storage, shall continue to be used for parking at least 8 vehicles, and shall not be used for auto body or auto repair shop work (vehicle cleaning is permitted in this area). With this area subtracted from the building area for the purpose of calculating required parking, it reduces the number of required parking spaces to 18. Since this condition requires 8 parking spaces be provided in the garage addition, then 10 other parking spaces must be provided on the site to meet the parking requirement.
2. A site plan that reflects these conditions shall be submitted to the Department of Safety & Inspections for review and approval. The 1985 Zoning Administrator order to remove the spray booth addition on the north side of the building, an order that was upheld by the City Council upon appeal, remains in effect unless it is rescinded by the Zoning Administrator upon site plan review and approval. If the former spray paint booth addition remains it shall be used only for cleaning and detailing vehicles, and may not be used for auto body or auto repair shop work. (If the addition were removed, it would reduce the parking requirement by 1 space, and the location of the addition could be used for an additional parking space.)
3. The parking spaces that are required for customers, employees and vehicles on the lot for auto repair shall not be used for display of vehicles for sale.
4. Employee vehicles, for-sale vehicles, repair vehicles, and any other vehicles associated with the business must be parked on-site, and shall not be parked on streets or alleys.
5. The layout of parking spaces must meet the requirements in Zoning Code § 63.308 and § 63.309 for space

for any maneuvering of vehicles to be provided on the site and not in public right-of-way.

6. Off-street parking on the site shall meet dimensional and design standards in the Zoning Code to the greatest extent possible, excluding the perimeter and screening landscape requirements in Zoning Code § 63.314 for parking facilities and outdoor auto sales adjoining public streets or sidewalks. A masonry wall or decorative fence (not including chain link), a minimum of three (3) feet in height and a maximum of four and one-half (4½) feet in height, shall be installed and maintained along adjoining Arcade Street and Clear Avenue public sidewalks as required by § 63.314.

7. All auto repair work shall be done within an enclosed building. Paint fumes from the auto body shop shall be controlled so that they are not noticeable on adjacent lots.

8. There shall be no outside storage.

9. At least 100 square feet of additional landscaping shall be provided on the site, to the Arcade Street or Clear Avenue sides of the building at 1346 Arcade Street. Such landscaping need not meet the requirements of Zoning Code § 63.314, and it may result in the loss of for-sale vehicle spaces but it may not result in the loss of customer or employee parking spaces.

ADDITIONAL LICENSE CONDITIONS #10 - 21:

10. The parking lot shall be striped and maintained in accordance with the approved site plan on file with DSI dated 11/21/2022. A maximum of eighteen (18) vehicles may be parked on the exterior of the property at any time. Vehicles shall be parked in accordance with the approved site plan. Site improvements (e.g., parking space striping, masonry-wall/decorative-fencing, landscaping, etc.) shall be maintained in good order and repair.

11. The storage of vehicles for the purpose of salvaging parts is expressly forbidden. All vehicles parked outdoors must appear to be completely assembled with no major body parts missing. Vehicle salvage is not permitted.

12. Customer vehicles may not be parked longer than ten (10) days on the premises. It shall be the responsibility of the licensee to ensure that any vehicle not claimed by its owner is removed from the lot as permitted by law.

13. Provide maneuvering space on the property to allow vehicles entering and exiting the site to proceed forward. Backing from the street or on to the street is prohibited.

14. Licensee must comply with all federal, state and local laws.

15. Wheel stops shall be added to the customer parking spaces fronting along Arcade St to ensure that vehicles do not project into and/or obstruct the public right-of-way (i.e., sidewalk).

16. Licensee acknowledges that any activity taking place on the property shall comply with Chapter 293 Noise Regulations of the City of Saint Paul Legislative Code, and agrees to entirely close the rear alley garage doors when grinding tools are in use/operation in order to promote compliance with this Chapter.

17. The hours of operation on Monday thru Friday shall be limited to between 8:00 a.m. and 6:30 p.m.

18. The hours of operation on Saturdays shall be limited to between 8:00 a.m. and 5:00 p.m.

19. The establishment shall be closed on Sundays except that the licensee, employees, and/or staff may be on-site between the hours of 10:00 a.m. and 4:00 p.m. to perform maintenance on the premises, paperwork, etc. No working on vehicles shall occur on Sundays. Any activity taking place on the premises shall not create a disturbance that is discernable from outside the building.

20. All painting will occur within an approved spray paint booth that is maintained in good order and repair.

21. Site improvements in accordance with the approved site plan shall be completed by 06/01/2023

The Payne Phalen Community Council submitted an email of objection.

Building: NA

License: Approved with conditions (NOTE: a recent site inspection of operations under the current license and associated approved site plan found the property and surrounding location to be out of compliance with current license conditions).

Zoning: Approved

Approval with conditions subject to the licensee bringing the property and surrounding area into compliance

with the existing license conditions and approved site plan, and scheduling an on-site inspection with a DSI License Inspector to verify compliance and review proposed changes.
