SECTION 1

Section 33.04 and 33.06 of the Saint Paul Legislative Code is hereby amended to read as follows:

Sec. 33.04. - Establishment of permit fees.

Building valuation for the purpose of establishing building permit fees shall be as set forth by the valuation data published by the Building Code Division, Department of Administration, State of Minnesota, as may be

amended from time to time.

Value of work other than that included in the valuation data published by the Building Code Division, State of Minnesota, must include the cost of installations, alterations, additions or repairs, including all labor and materials supplied by the contractor and other sources. The building code officer may require the contractor to furnish the city with a written statement of the actual cost of the work. When such costs exceed those for which the permit was issued, an additional permit fee will be required and collected based on the fee schedule established herein.
