Appeal of William Wilson to a Correction Notice - Complaint Inspection at 801 ARMSTRONG AVENUE.

The correction notice requires a new roof and major repairs to the property in one month. More importantly, the stated deficiencies are factually incorrect. The roof is older, but "weather tight", and the porch is not actively pulling away from the building. Both have passed home inspection when I bought the property, and previous C of Occupancy inspections. There was no mention of these issues in prior Certificates of Occupancy.
