## **PUBLIC HEARING**

4. Resolution approving and authorizing the sale and conveyance of seventeen properties under the Inspiring Communities Program; authorization to enter into development agreements, and authorization of expenditures for redevelopment under the Saint Paul Housing and Redevelopment Authority's Inspiring Communities Program, Districts 3, 4, 5, 6, 7 and 9, Wards 1, 2, 5, 6 and 7

Dr. Bruce Corrie, HRA Executive Director, stated that under the leadership of Mayor Carter, the HRA and City Council; the Housing team led by Housing Director, Kayla Schuchman, implemented a comprehensive affordable housing strategy for the City of Saint Paul. Following the Rental Rehab pilot program last year, the 4d program was introduced on February 27, 2019 and continued work on the Housing Trust Fund. Another component of the strategy includes vacant HRA owned lots in which developers were explored that offered models of innovation, assist in building a neighborhood as we build a house, as well as, diversify the developer pool. Today's item includes 17 properties with six developer-partners. Some examples of the creative work include Green Affordable Home will be using modular, structurally insulated panels to construct homes. John Aish Inc. will purchase construction materials directly so that small sub-contractors who can't afford to buy materials and tools up-front have an equal chance to do work at the building site. Habitat for Humanity will provide housing finance and down-payment assistance for their end-buyers in addition to constructing the home. Eden Builders will construct duplexes to increase the utility of space and materials and enable the end-buyer to generate income using the property.

Commissioner Prince asked what the affordability will be for the end user. Dionne Alkamoonah, PED Principal Project Manager, stated that the affordability limit associated with most of the projects will be 120% AMI for the end buyer; the remaining will be 115% AMI. Commissioner Prince asked why the income level of affordability was ramped up for these properties. Dionne shared that these properties were less appealing to developers and are challenging lots, for example, 947 Sylvan is a property that has no sewer connection. 633 Hall & 6 George Street have topographical issues. 302 Burgess Street, 964 Woodbridge, 53 Front, 905 Charles, 981 Euclid, 930 York and 810 Atlantic are all smaller than the permissible lot size for residential building.

Commissioner Brendmoen shared her excitement for this project.

Commissioner Noecker thanked staff and asked how many properties are remaining. Dionne stated that there is approximately 70 properties left.

Moved by Commissioner Brendmoen, Resolution Adopted as set forth in RES PH 19-59
