WHEREAS, the Saint Paul City Council and Mayor Melvin Carter are dedicated to making Saint Paul one of the most sustainable cities in the United States and to protecting our city's air, water, and urban landscape; and

WHEREAS, the U.S. Environmental Protection Agency (EPA) coordinates "The Clean Diesel Program" which provides support for projects that protect human health and improve air quality by reducing harmful emissions from diesel engines and provides grants and rebates funded under the Diesel Emissions Reduction Act (DERA); and

WHEREAS, the City of Saint Paul partnered with the Environmental Initiative, a nonprofit organization that builds partnerships to develop collaborative solutions to Minnesota's environmental problems, on an application to the EPA's DERA program; and

WHEREAS, the City has been awarded \$151,496.00 of grant funding, which has been distributed through Environmental Initiative and will directly offset the cost of replacing identified vehicles, thus reducing the City's cost for their replacement; and

WHEREAS, the Mayor pursuant to Section 10.07.1 of the Charter of the City of Saint Paul, does certify that there are available for appropriations funds of \$151,496.00 in excess of those estimated in the 2021 budget; now therefore be it

RESOLVED, by the City Council, that:
