WHEREAS, the City has identified environmental investigation and clean-up projects within the City that meet the purposes and criteria of the Contamination Investigation and Cleanup Grant Program of the Department of Employment and Economic Development and the Tax Base Revitalization Account Grant Program of the Metropolitan Council; and

WHEREAS, the City of Saint Paul, Minnesota is a participant in the Livable Communities Act's Housing Incentives Program for 2010 as determined by the Metropolitan Council, and is therefore eligible to make application for funds under its Tax Base Revitalization Account; and

WHEREAS, the City finds that the required contamination cleanup will not occur through private or other public investment within the reasonably foreseeable future without Contamination Investigation and Cleanup and Tax Base Revitalization Account grant funding; and

WHEREAS, the City represents that it has undertaken reasonable and good faith efforts to procure funding for the activities for which Contamination Investigation and Cleanup and Tax Base Revitalization Account grant funding is sought but was not able to find or secure from other sources funding that is necessary for cleanup completion and states that this representation is based on the following reasons and supporting facts:
