---

Hello Councilmembers,

I am writing to enthusiastically support the proposed Saint Paul bicycle plan, and its aims of making biking a more accessible form of transportation for more Saint Paulites. I encourage the city council to pass the plan, and support strong implementation of the new bike infrastructure that the plan calls for.

I currently struggle to bike in our neighborhood due poor or no bike infrastructure, especially north south corridors and even some commuter east west corridors that are not along the recreational river pathways. As a car-lite person who gets around during work days via bike, micromobility, and bus as my partner takes our car to work; as a person who bikes to our many brew pubs in the neighborhood to work off some of the beer and burger calories; and who enjoys getting outdoors for biking dates with my partner, I implore you to support the proposed St. Paul bicycle plan.

Best,  
Christian Noyce  
759 Hague Ave, St Paul, MN 55104

I just wanted to submit my support for the bicycle lane down Dale between Front and Larpenteur. I've heard a local business complaining that it would take away parking spots but I can assure you there's more than enough parking for a small coffee shop around it.

Thank you,

Kristin Wells

Dear City Council,

I strongly support the St. Paul Bike Plan and urge the Council to pass it. I live in St. Paul and I frequently use the bike system around St. Paul. I'm eager to see further improvements.

Sincerely,  
Dave Peterson
