

*Kitchen Carpet Repair

*I told them in year 2024 early months but I believe it got fix in early of 2025. I don't remember it was more then six month, I had to wait.

*When I inform Property management about it I was never given a ticket # or receipt other then verbal confirmation.

This is the spot

*Location is next to kitchen.

① *AS You can see they repair the carpet (next to my kitchen) cheaply using another cut from a different color carpet. Just glue down.

④ Again its cheap repair
Just like the garage repair

③ This is in black & white but you can tell because of the darker color carpet.

② When I told them about this it took them more then six months to come and only do a cheap job.
