## Narratives

**Narrative 1** Created by: **PHAN, HOANG (541801)** 03/18/2024, 16:22

**Synopsis :**  
Investigation of a death.

**Narrative :**  
On 03-18-24, I, Squad 150 (Phan), were dispatched to 1063 Minnehaha Avenue West with Squad 159 (Ofc. Herschman) to conduct a welfare check at the address. Call comments stated, "COMP HAS NOT BEEN ABLE TO REACH HIS BROTHER SINCE 3/8/24 / VERY UNUSUAL / HAS DEPRESSION AND ALCOHOLISM / SUBJ: JOHANNSEN, DAN, W/M, 67YO, 508, MED BLD / HAS A BIG BLK TRUCK USUALLY PARKED DIRECTLY IFO HOUSE / COMP REQ CB WITH RESULTS".

Upon arrival, all doors and windows were secure and there was mail in the mail box. I looked through the back door and observed a person laying facedown, on the floor, with their head against a chair, near the inside of the doorway in the living room. I knocked on the door loudly and the person did not respond. I could see that his fingers were discolored and nearly black, which usually indicates that the person had been deceased for a long period of time past any medical assistance. I did not observe any exigent circumstance to break the door down immediately to provide medical attention. I requested assistance from medics who had the tools necessary to make forced entry into the home. I also requested Saint Paul Animal control to the scene to assist with a dog that appeared to not want emergency staff on scene.

Medics arrived on scene and Animal control arrived on scene shortly after.

Medics forced entry into the rear door. Animal control staff led the way with their tools to try and secure the dog. The dog ran upstairs while barking at all of us on scene. We cornered the dog into a room where we were able to eventually secure the dog and then escort it to the animal control vehicle. The dog was not hurt by emergency staff and did not appear to be injured. The dog was turned over to Animal control and I provided animal control with the owners brothers information.

## SAINT PAUL POLICE DEPARTMENT

Medic 18 assessed the incident and did not provide any medical care due to the patient being passed any medical help (run: 13150). Medics provided the time of death of 1316 hours but the Medical Examiner will be using the time of the call (1257 hours).

We identified the patient as Daniel Dion Johannsen (DOB/1956-08-31) by MN DL, found in his wallet located in his back pocket. Daniel was positioned with his body on the floor, stomach down, and had the left side of his head against a green chair. Daniel was fully clothed with a winter stocking hat on and his wallet in his back right pocket. Daniel's fingers were discolored and blackened and there was pooling throughout Daniel's body. Daniel had a blanket covering his lower half, which, when uncovered, revealed what appeared to be a large wound from an animal, likely his dog. There were bite marks all around the wound and missing flesh. There was no blood around the wound or on the floor near the wound. Daniel did not have any obvious traumatic injuries on his body related to the death.

I verified that all doors and windows on the main level were secured. We searched the house for any obvious signs of a suspicious death with negative results. I did not locate any obvious video surveillance cameras in the home or area around the home.

I contacted Squad 104 (Sgt. D. Johnson) and advised him of the incident.

I contacted the Ramsey County Medical Examiner and advised them of the incident. Investigator T. Forrest advised that she would be arriving on scene to take custody of Daniel. I was later provided the RCME case number (2024-0909).

I took photos of the scene and later uploaded the photos to the media vault.

I made contact with the original comp, Mark Johannsen, who confirmed that he was the brother of Daniel. Mark advised that he last talked to Daniel on 03-08-24 and thought it was odd that Daniel had not called him recently. Mark stated that they talked with one another at least every other day. Mark said that Daniel had not been complaining of any health issues but did confirm that Daniel has a history with alcoholism and depression. I advised Mark of the investigation and provided him with my contact information with the case number to this incident. I later tried calling Mark back to provide him with the Medical examiners information but his voicemailbox was full.

The RCME arrived on scene and took custody of Daniel.

After the RCME left, a board up crew secured the rear door. I, Officer Phan, had to take a set of Daniel's keys to exit out of the front door to fully secure the home. I later turned the keys into the secure Western District Property Lockbox.

## Narrative 2

Created by: **MCQUAY, JEREMIAH (434925)**

**03/19/2024, 08:53**

### Narrative :

I (Sergeant McQuay) am assigned to the Homicide and Robbery Unit for the St. Paul Police Department and was assigned this case for review and investigation. I began by reviewing all included reports and information for the parties involved, to determine the course of the investigation, as well as information gathering for possible criminal charges.

The officers on scene did not locate any evidence or information that would indicate this is a suspicious death. I reviewed the media vault pictures, and any evidence collected in the case. At this time, the death appears to be due to natural causes, and the case will be NOTED. If there is further information obtained, or if the Office of the Medical Examiner contacts us with suspicious results or alternate findings, the case will be immediately re-opened.
