---

Robert / Matt,

Just got off the phone with PO John who is a bit concerned as his VB annual fee renewal date approaches on 11/15. His father who has been helping him with this has had some health issues which has slowed thi progress some. He is hoping for some grace on the fee deadline as he approaches the end of his project.

This was a fire home and was fully gutted. He is on the home stretch with this one and has made great progress for a young and new contractor. He is saying that he believes he can have it done in about 2 months. On my end I have inspected everything except for the final inspection. John has been great to work with and I told him that I would relay the status of this project to you guys for consideration.

Blessings,

**Clint Zane**
