Internal note

Previous UDRF hold, which was applied to one unit in Q2 2025. Cart removal not set up until recently because we were under the impression there was no cart to remove until now. No indication of why 35 gallon cart was added onto account in Q3 2025

PO reports missed collections since Sept 2025 but PO received successful collection of bulky time in Sept. Bulky item collected 9/30/2026, requested by PO and stated it would be on side street next to her cart, where it is usually collected. Image shows 35 gallon with fridge

PO sent Ring Camera footage from April 14 showing there is only one 64 gallon cart in front of home and denies 35 gallon cart, stating it is not hers. However City Route Supervisor is familiar with this property and knows they set one small cart on side street and one medium cart in front of home. PO denies this statement.
