Mai,

Unfortunately, we don't keep a record of the serial numbers for the recycling containers at each house. If PO states that the carts don't belong to them/appear to be abandonded- we simply remove them.

If PO has been charged for this offense, I can dig deeper and see if Eureka has an old record of the numbers to prove (or disprove) that the cart numbers match the address. Otherwise, we can simply remove them.

Please let me know if you'd like me to place a job to have them removed and/or you want me to ask Eureka to dig deeper.

Thanks,

Lydia

Hi,
I was wondering if someone can check on these serial numbers on the bins to see which house it belongs to. Property owners at 515 Beaumont Ave called and stated the bins have been an ongoing problem for them. He thinks it belongs to the neighboring property at 509 Beaumont, but tenants there have been putting them on his property for the longest time. Each time they removed it from their front blvd, those bins come back. I have enclosed photos and orders owner received. The first 2 photos are what he took from the street.

Thanks.

Hello Mr. Thao,

I am following up on our phone conversation from Wednesday regarding the excessive inspection for the 2 bins on blvd. Please provide me with the 2 serial numbers on the containers so I can forward to Public Works to check on this.
In the meantime, I will set up a file for your hearing on August 22 via telephone between 10 and noon.

I have attached the orders and photos so you can also see what was there.
