

REPORTS ON THE FINANCIAL OPERATIONS OF THE SAINT PAUL REGIONAL WATER SERVICES

FOR THE MONTH OF

APRIL

TO THE BOARD OF WATER COMMISSIONERS

FINANCING INFORMATION TOOL – PROBE CUMULATIVE YEAR TO DATE

This report indicates the annual amount budgeted and the accumulated revenues billed plus amounts received in cash (if the item was not billed and thereby already included in revenue) for each fully qualified account code.

The variance indicated is the amount over or (short) of the annual budgeted revenues amount.

GL DEPARTMENTAL ACCOUNT SUMMARY

CUMULATIVE YEAR TO DATE

This report indicates the annual amount budgeted, the accumulated expenditures, and the amount available for each fully qualified account code.

The 1st column is the original adopted spending budget as amended by the General Manager.

The 2nd column contains the amount expended by the Utility. Expended means the amount actually paid or entered in the INFOR system as a bill to be paid. It does not include any amounts for planned purchases, commitments (pending requisitions) or encumbrances (open purchase orders). Expended does not mean expense. For example, we may have received delivery, accepted and paid for 5000 feet of pipe and put it into inventory. The accounting result is to have exchanged one asset (cash) for another asset (pipe) that would be carried in our supplies inventory. When the pipe is taken out of the supplies inventory and put into the ground to repair a leak the cost of the pipe would be removed from inventory and charged to the expended amounts as a true expense. If some of the pipe is then taken out of the supplies inventory and put into a new main or a replacement main, the item is capitalized with the other costs of the project, and placed into the fixed assets inventory as a main. Thus, this particular pipe never becomes an expended amount, as it is just an asset (supplies inventory) for asset (fixed asset – mains) exchange. At the end of the year when all the accounting records are compiled and entered into the INFOR system, the expended column will finally reflect the true expenses of the utility.

The 3rd column is the available funds that have not yet been expended. To determine the true available balance, management must subtract outstanding commitments and encumbrances.
