Ward 4	City Council/City Clerk;	Union Park (District Council 13)	Resident;	Divest from Israel	Because Israel is committing genocide against the Palestinian people. Ward 2	Mayor's Office;City Attorney's Office;Parks and Recreation;Public Works ;City Council/City Clerk;Financial Empowerment;	Summit Hill (District Council 16)	Resident;Businessowner ;	District Councils. Mayor's Cabinet. Public Works. Parks & Rec.	What does the District Council even do? Staff non responsive and very little communication to neighbors. "Common cent" dollars (public works and Parks and Rec) need to audited, as well as general spending. I'm very concerned that money is not being spent sustainably. We desperately need maintenance, and we should not spend money on new things we can't maintain or over priced bike trails. Mayors office and cabinet have grown considerably and tax payers should understand why.	St. Paul has nice parks, libraries, neighborhoods, and historic resources.	We desperately need maintenance, and we should not spend money on new things we can't maintain or over priced bike trails. The City needs to focus on basics, not trying to do the federal government job (reparations, child care, etc.)						No
