RE: *Appeal of Correction Notice – Drainpipe Discharge*
Property: 1164 Summit Avenue, Saint Paul, MN, 55105

Dear Inspector Caballero:

Please be advised that we have been retained to represent the homeowner, Alford S. Karayusuf, of the above property. This letter serves as a formal appeal of the Correction Notice, dated October 7, 2025, directing Mr. Karayusuf to "immediately disconnect and remove the drainpipes in the retaining wall that borders the sidewalk."

Mr. Karayusuf respectfully objects and appeals the Correction Notice and will not immediately disconnect and remove the drainpipes in the border wall. The drainpipes in question were installed and approved by the City of Saint Paul nearly thirty years ago.

Background of the Forced Downspout Disconnection

This home was built in 1914. In 1995, the City of Saint Paul required Mr. Karayusuf to modify the drainage system as part of the Rain Leader Disconnect Program, which required homeowners to disconnect rain leaders from the sanitary sewer and redirect

stormwater elsewhere in compliance with Section 41.03 of the Saint Paul Legislative Code. This was a controversial decision since when they bought their home the downspouts legally drained directly into the sanitary sewer.

After numerous conversations with City officials and City Council members, a compromise was reached whereby Mr. Karayusuf agreed to disconnect his downspouts from the sanitary sewer, and hired a private contractor to bury two underground PVC pipes to carry the rainwater from the downspouts to the retaining wall that abutted Dunlap Street.

The City Inspector at the time, Jim Vanderhoof, approved the work before it was performed. After completing the work, the same City Inspector inspected the configuration, and again approved the change, and new drainage system.

On August 18, 1995, Inspector Vanderhoof certified in writing the property to be compliant with Section 41.03. A copy of that certification is attached. I am in possession of the original.¹

As further proof that the City approved of these changes in 1995 and more recently, when the Dunlap sidewalk was re-poured by the City, a separate section and trough was poured to accommodate the runoff. [See attached photo.] No one walks on this small but separate section of the sidewalk. The separate section is sloped toward the border wall and diverts the water away from the public right of way-sidewalk. The system has worked as intended and approved by the City for nearly three decades without issue, incident or complaint.

Lawful Pre-existing Condition

The drainage system is a lawful pre-existing condition created at the City's direction and approved under its own inspection process. It has remained unchanged since 1995. This configuration is not a nuisance and was originally installed to comply with the City's requirements to disconnect their downspouts. In my view this appears to be a case of "selective enforcement," and is an arbitrary and capricious act. We would request a copy of any complaints received from the public.

Further, given its age, approval history in writing, and lack of any hazard, Mr. Karayusuf should be deemed to be "grandfathered in." Any enforcement action requiring removal

¹ it is likely that this certification is not in your files. On October 14, 2025, we were informed by the City Clerk that, since the recent data breach, all records regarding this address have been deleted or are inaccessible.

of this long-approved condition would be inconsistent with both the City's prior directives and longstanding Minnesota law governing lawful, pre-existing uses.

We intend to be present for the re-inspection of the property on or after October 21, 2025.

We respectfully request that enforcement be suspended while this appeal is pending and that the City confirm the process for administrative review.

I welcome the opportunity to speak with you, your supervisor, or the City Attorney.

Very truly yours,

LARSON • KING, LLP

A handwritten signature in blue ink, appearing to read "Patrick H. O'Neill, Jr.", is written over the printed name.

CORRECTION NOTICE

Date: October 7, 2025
RE: 1164 Summit Ave

Dear Sir/Madam:

The City of Saint Paul, Department of Safety and Inspections has inspected the above referenced property on October 6, 2025, and has determined that the following deficiencies exist in violation of the Saint Paul Legislative Code:

1. A "nuisance" shall mean any substance, matter, emission or thing which creates a dangerous or unhealthy condition or which threatens the public peace, health, safety or sanitary condition of the city or which is offensive or has a blighting influence on the community and which is found upon, in, being discharged or flowing from any street, alley, highway, railroad right-of-way, vehicle, raised car, water, excavation, building, erection, lot, grounds or other property located within the city. Nuisances shall include, but not be limited to, those set forth in this section.

**IMMEDIATELY DISCONNECT AND REMOVE THE DRAINPIPES IN THE
RETAINING WALL THAT BORDERS THE SIDEWALK. WATER CANNOT BE
DISCHARGED ONTO THE PUBLIC RIGHT OF WAY.**

You are hereby notified to correct these deficiencies in accordance with the appropriate codes. The enforcement Officer will re-inspect these premises on or after October 21, 2025, by which date the violations noted must be corrected. Failure to correct these deficiencies may result in an abatement and/or additional fees for re-inspection.

You may file an appeal to this notice by contacting the City Clerk's Office at (651) 266-8585. Any appeal must be made in writing within 10 days of the date of this notice. (You must submit a copy of this Notice when you appeal and pay a filing fee.)

If you have any questions or request additional information concerning this matter, please contact Inspector Hector Caballero, at (651) 266-9168. To arrange an appointment or request an extension of time to complete repairs, you will need to speak directly to the Inspector.

Sincerely,

Enforcement Officer
