Tech Hire Placement Rate

Summary from 2020 - 2024

Summary (Yearly)

- A total of **82** participants were awarded the MSP TechHire Scholarship & WIOA funding between 2020 to 2024 (through July '24).
- **75** completed the training with a completion rate of **91%**. Six are still in training from 2024 cohort.
- **25** participants have been employed making the employment rate **33%**.

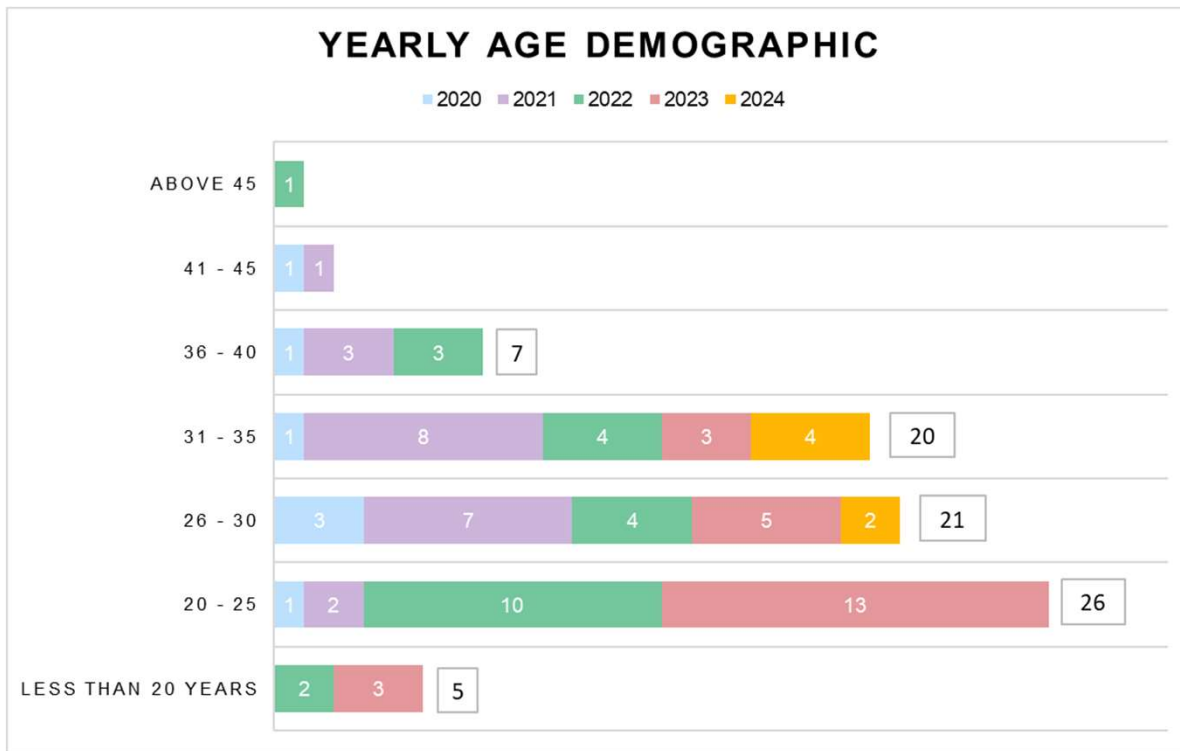

Tech Hire Wage Rate

- The overall average placed wage is **\$34** from the average previous wage **\$19**, a jump by **\$15** average wage gain of almost **83%** amongst the 25 placed individuals from the years 2020, 2021 and 2022 cohorts.
- The year 2022 saw the highest jump in the wage gain of almost 112% from an average previous wage of \$16.07 to \$34.

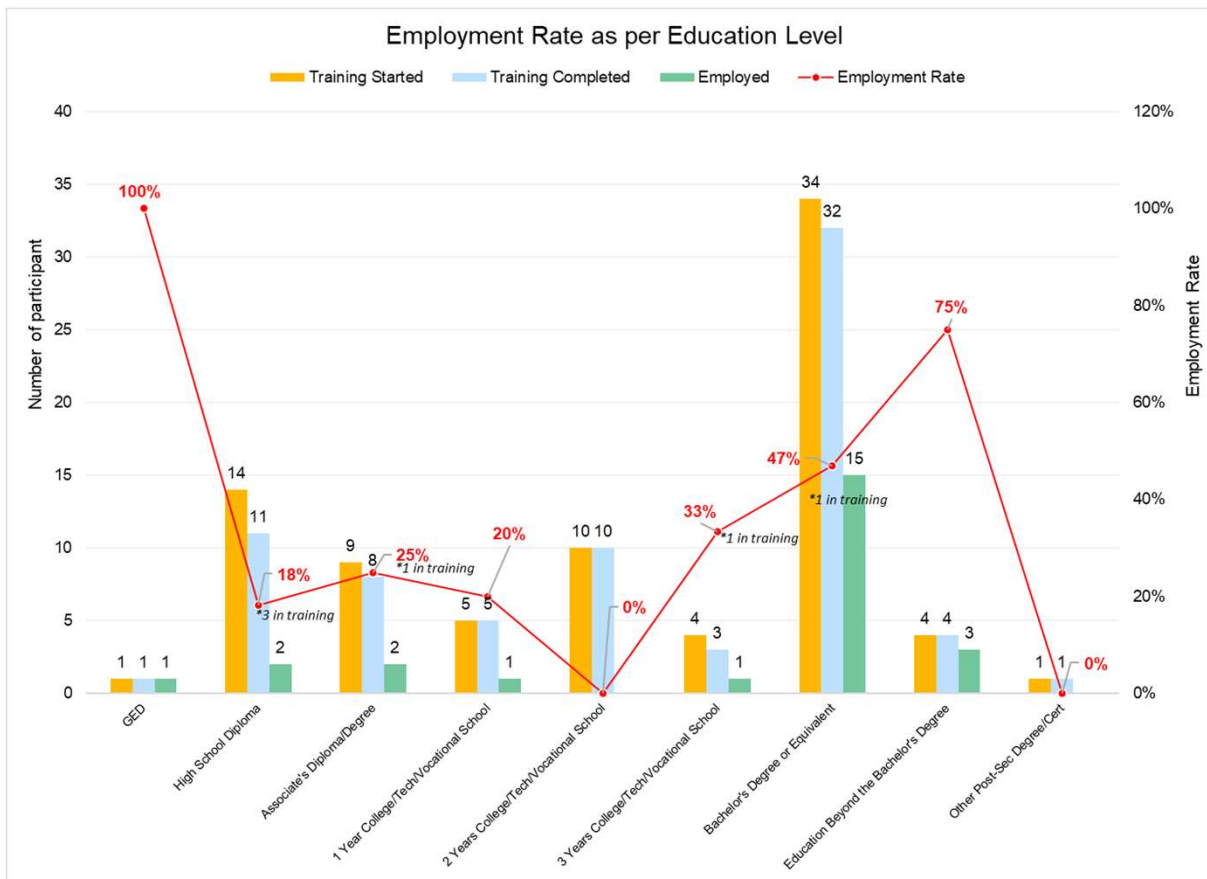

Tech Hire Age

- Most of the scholarship recipients are **young adults aged between 20 – 25 years**.
- There isn't a set eligibility age requirement for the MSP TechHire program. However, this category might be inflated due to the **16 UI/UX academy participants** which required **an average age of 24 years**. There were **6 UX academy participants in 2022** & **10 in 2023**.

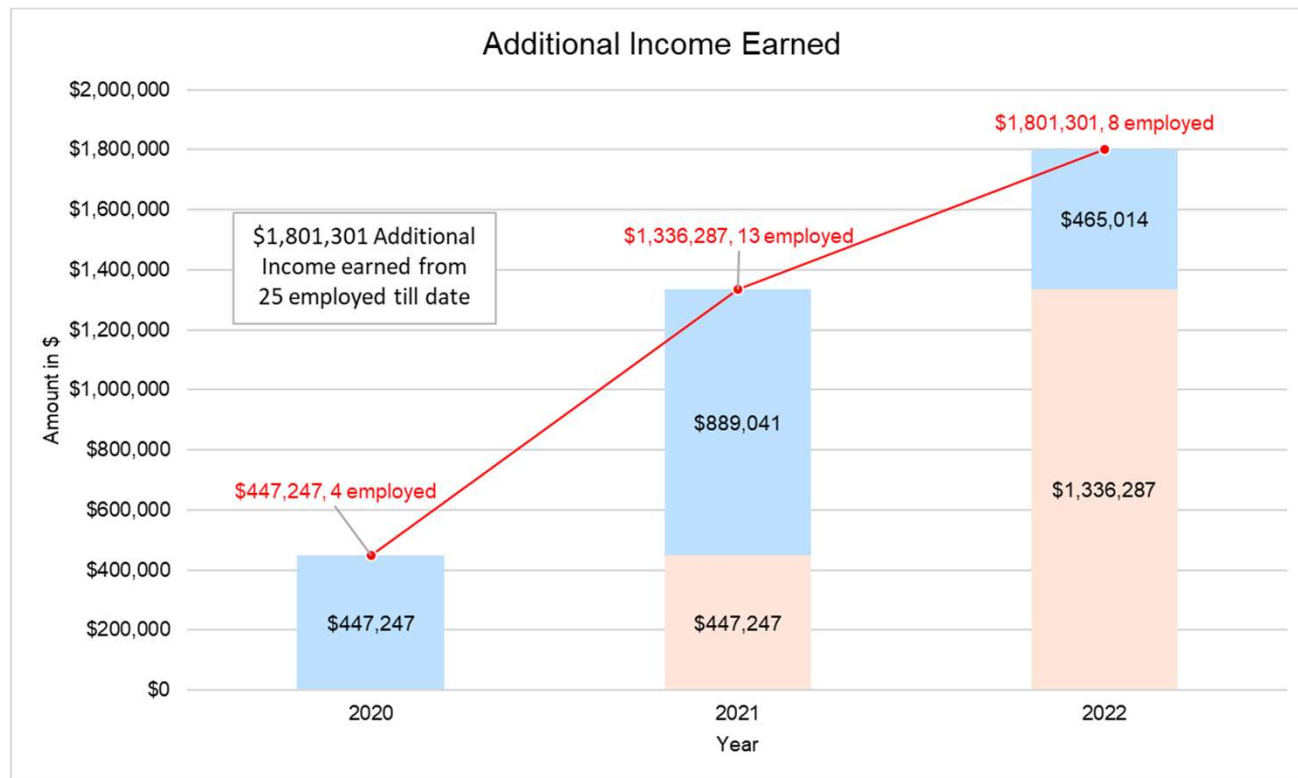

Tech Hire Education and Employment level

- We measure the employment rate per education level by comparing the number participants that have been employed in terms of those who have completed their training.
- Although most of the participants that completed the training holds a Bachelor's Degree or Equivalent (32), but their employment rate is only 47%, i.e., only 15 of them have been placed.

Tech Hire Income Gained (reporting estimate)

Full Stack Saint Paul – Tech Fund

- HRA funding from 2020 included \$150,000 for a Full Stack Saint Paul led “Tech Fund” with the intention of building an incubator, such as Tech Stars or other strategic business development.
- 2023 committee recommendation was to help launch the Bridgemakers’ tech business accelerator by and for young people underrepresented in the tech community with the full amount.
- Additional infusion of \$40,000 in 2025 to continue targeted business development and incubation infrastructure to help launch tech-powered start-ups centered on city-wide goals:
 - Develop social and financial impact “SROI” criteria aligned with city goals such as equity, generational wealth building, sustainability, city procurement, city modernization, and social innovation
 - Flexibility to advance recommendations for targeted business development with key partnerships
