Subject: Sound Level Variance - TC Jazz Festival
Date: Thursday, April 25, 2024 4:22:39 PM

I am writing to support the sound level variance request for the Twin Cities Jazz Festival at Mears Park.

I live on the corner of Mears Park with window and rooftop patio facing the park and have no concerns with the request. And, I know that many in the neighborhood are excited for the continuation of this event.

The request, as submitted by Dayna Martinez - Executive Director, is very clear in its request. And very reasonable.

Thanks for your work on city matters and for your consideration!
