Subject: Support for HOTWORX Studio's 24/7 Hours of Operation

Dear St. Paul City Council Members,

I am writing to express my strong support for allowing HOTWORX Studio in Union Park to remain open 24/7. As a dedicated fitness enthusiast and a longtime member of various fitness facilities, I deeply appreciate the flexibility that HOTWORX provides, allowing me to work out at a time that best fits my schedule rather than being restricted to set hours.

Having the ability to access the facility using my personalized entry code ensures a safe and convenient workout experience, and this level of accessibility is invaluable to those of us with demanding and unpredictable schedules. The studio's location in the Midway/Union Park area is ideal—not only is it just five minutes from my home, but it also provides an important health and wellness resource for the community.

Beyond personal convenience, supporting a business like HOTWORX sends a positive message about growth and revitalization in the area surrounding Allianz Field, which is in need of improvement. Encouraging a business that promotes health and well-being contributes to the community's overall vibrancy and signals that more positive developments are on the horizon.

I urge you to support HOTWORX in acquiring the permit that would allow it to operate 24/7, ensuring that community members like myself can continue to enjoy this valuable resource at times that work best for our lifestyles. Thank you for your time and consideration.

Sincerely,

Kandace Logan
