Hello,
I am writing on behalf of my family. We live on 139 Annapolis St E and are part of the Annapolis Street project.

We received the letter notifying us of the potential costs this project and what we would be responsible for. While we believe the update and work was needed and is a great update to the community, this is an amount we absolutely can not afford.
We like many others live paycheck to paycheck and struggle with keeping up with the bills and day to day life costs.
This would be impossible for us to pay up front and adding it to our property taxes would be an extra cost we just can't afford.
I hope this is taken into consideration as I know we are not the only family in the community with the same situation.

Thank you for your time,
Mike and Teresa Lau
