Date: June 24, 2026

Hello Nicole,

Upon completion of our review verifying the signatures of registered voters in the City of Saint Paul related to the petition submitted to the Ramsey County Elections Office on 6/11/2026, we were able to verify a total of **5,048 signatures** as currently registered voters.

Provided with this memo is an excel file that lists the reason we could not verify a signature line. Of the signatures we could not verify, about 700 were the result of no information on the signature line, around 800 came from “insufficient address” which could mean the signer didn’t write down an address, used ditto marks, or did not include the apartment number as listed in their registration record. Finally, there were about 1,400 signatures in which we could not find either the name or address provided on the petition.

Within the County’s possession is the original petition, a copy of the petition that was used for verification, a list of reasons for rejection, a copy of the master list of registered voters, and the receipt of submission. Unless instructed otherwise, we will retain this data for the required retention period.

Let me know if you need additional information.

Take care,

David Triplett
