In regards to RES 25-434 Public Safety and Community Wellness Committee it seems redundant to form an additional committee to address issues that could be handled by the current Neighborhood Safety Community Council (NSCC).

As a member of the NSCC, I feel compelled to comment on this Resolution. The members of the NSCC have extensive experience and expertise in community resources and fields related to public safety and justice. The City Council has approved all of our community members and our tasks are directed by the Office of Neighborhood Safety (ONS).

If there are new interests and directions that the City Council would like to pursue, the current NSCC is able to handle those additional responsibilities. The NSCC is a resource that already exists and can address other concerns as needed.

I hope this information is helpful as you vote on this resolution.

Thank you, Diane Levendusky, MSSW
