Dear HRA,

We are told that over a billion dollars has been invested in Saint Paul and yet we the taxpayers still have to subsidize a developer? Instead of adding to our taxbase, we the citizens have to pay more so wealthy people have less risk for their investments? When will the Saint Paul HRA wake up and realize we are over-extended?

There is a better way.

We need to decertify the TIF districts we have (already more % of our taxable property is a TIF than any other city in Minnesota) and not add more.

Sincerely,

Gerald Mischke
