Subject: Snelling University vacant CVS demolition

You don't often get email from haleygenest@gmail.com. [Learn why this is important](#)

To whom this may concern,

I am a resident near the Snelling University vacant CVS. I believe this vacant CVS has caused many issues for our community and would like to see it be demolished and replaced with a better asset for our community. More and more buildings seem to be emptying near here. Nothing going in place of these buildings. Our community needs more to help thrive and not create more areas for more of the issues that we have faced to keep occurring.
