Hello St. Paul City Council,

On behalf of the Board of Directors and the Board President of Town & Country Club, we'd like to submit this comment for today's meeting regarding the Pelham Project.

As we stated in our August submission in connection with the Pelham Boulevard Reconstruction Project, Town and Country has been a part of this neighborhood for more than 125 years and we strive to be a good neighbor in all that we do. If the Project moves forward, we would like to ensure that our Superintendent Jared Watters has a "seat at the table" with the City and its engineering staff as it relates to the final design adjacent to our property. As part of being a good neighbor, the Town and Country grounds crew has cut and maintained the grass on Pelham boulevard adjacent to our property for 40+ years. Jared would like to work with the City and its engineers to ensure that whatever path they choose does not increase the burden on his staff and budget or negatively impact the existing trees and structures on the golf course.

Regards,

Bridget Eckert, CCM General Manager/COO
