Hello,

I am a resident in the area affected by the Special Sanitary Sewer Availability Connection Charge (SSSACC) District. I received a notice of a proposal to require new users of the facility to provide funding for necessary improvements.

Based on the volume of new, large users of services in this small area, including the new Como Clinic and Lifestyle Communities development, I strongly agree that costs should be passed to these new users and not area homeowners with a relatively smaller footprint.

Thank you!
