Dear Councilmember Noecker,

I am unable to attend the truth in taxation hearing this evening but wanted to add my feedback. I have lived in Saint Paul for the last 20 years and in that time my property taxes have more than tripled. When is enough enough? I am frustrated and angry with every passing year since my income certainly hasn't tripled in that same time period. The continued burden of unsustainable tax increases are making living in this city unbearable. City, county, state governments need to find other ways of paying for services. Property owners are fatigued and that is what I wanted you to hear. Thanks for hearing me.

With respect,

Mark S. Jungmann
