**LEGISLATIVE HEARING DISCUSSION ITEM**

- 34 [RLH VO 24-31](#) Appeal of Donald A. Hinrichs to a Notice of Condemnation as Unfit for Human Habitation & Order to Vacate, Notice to Cut Tall Grass and/or Weeds, and Summary Abatement Order at 995 WAKEFIELD AVENUE.

*Public hearing closed; laid over to October 2.*

*Donald Hinrichs, appellant, appeared in person*

*Marcia Moermond, Legislative Hearing Officer: There are 3 orders in this appeal. One has to do with tall grass, weeds, and overgrown vegetation in the yard. Another has to do with garbage bags and other kinds of refuse in the yard. The third is an order to vacate the structure. One the screen is an image of the house with overgrowth shown. Another view shows the boulevard area with more of the tall grass. The garbage bags are piled up at least 10-high along with used cages.*

*The deadline for coming into compliance on those orders is today. There was to have been an inspection from the Department of Safety and Inspections (DSI) on compliance with those exterior orders today at 10am. There was some miscommunication, so I don't have follow-up information on that, but I'm thinking that it's likely to have been abated. If it hasn't been, then City staff would be authorized to go forward and clean up the yard.*

*The next more complex piece is the order to vacate the structure. A complaint came on August 5, 2024 of what was described as unsanitary living conditions and too many animals being present. An inspection was scheduled for August 9. The owner asked to reschedule, wanting to do additional work on the house. The next inspection was scheduled for August 15. A second rescheduling request was made, and it was scheduled for August 16. Another request was made, and it was rescheduled to September 3, which is when the inspection occurred. There was not access provided to the entire property, though much of it was accessible. The August 5 orders were based on what they saw at the time, and the conditions within were clearly showing unsanitary and hoarding conditions, including animal hoarding. This is significant in terms of the bacterial, viral, and toxic loads that it produces. The staff who were present said that it was “extreme”.*

*There was an appeal filed that same day for a Legislative Hearing and a hearing was conducted one week later on September 10. On September 11 there was another inspection to get a clearer picture of the property. The property owner again did not want to allow access because he wanted to do more cleaning, which is understandable, but it was really important in my view to get a baseline so that the Council had some place to begin with the property. The September 11 inspection documented that the September 3 conditions continued to exist, in terms of sanitation. They added items to the order as well. There was a strong odor of urine, and sanitizing was needed throughout. There was also a smell of caustic chemicals from the cleaning agents present, so breathing was extremely hard. One of our inspectors went home because her face swelled up. Animal feces on the interior and exterior were noted, as well as excessive combustible materials and inadequate carbon monoxide alarms. There was a basement bedroom which did not have proper exiting, a smoke detector alarm, or an egress window. Taking these things together, my recommendation in the follow-up hearing on September 17 was grant until today for the tall grass and weeds and garbage orders, and to recommend a vacate order effective this coming Monday. It's not a livable property, and this is a tight deadline. The original orders on September 3 required vacation within 48 hours. If the inspectors go in and find that the conditions have been improved, then they can lift that condemnation on their own. The sanitation and air quality issues need to be dealt with.*

*Another component I briefly talked about was animal hoarding. This property has been used for an “animal rescue”, focusing on the “pocket pet” variety of animals. It has been housing rabbits, hedgehogs, ferrets, rats, and guinea pigs. Additionally, the family has 5 dogs, and 4 cats were reported. For the animals that are allowed, the dogs and the cats, you can have up to 3. Dogs have to be licensed. If you go over 3, you need a permit. A permit is going to require approval of the surrounding neighbors and also an inspection to ensure safe, sanitary conditions for the animals present. It seems unlikely that a permit would be granted, given the findings of these inspections. It is also unlikely that this is a legal zoning use for property zoned H2. This would be allowable in a traditional neighborhood zoning district, but not here. The closest category this would fall into is an “animal boarding facility”. Finally, with respect to permitting, the animal code provides that one animal in certain categories can be maintained. Code states: “No person shall keep or permit more than one live rabbit, mink, ferret, turkey, duck, goose, pigeon, or similar small animal or bird in any dwelling unit or on the same lot or premise within the dwelling or other premises within the city without a permit. This paragraph does not apply to any single dove or other bird, chinchilla, hamster, gerbil, white rat, mouse, guinea pig maintained as a pet.” Consulting with Molly Lunaris, the manager of Animal Control, she clarifies that only one of that group of animals is allowed without a permit. I don't see a way for there to be resolution of the animal issue without there being complete reduction to almost none of the pocket variety of animals. Animal control reported that the owners*

have surrendered 2 guinea pigs, 23 rats, and 1 hamster to the MN Pocket Pet Rescue and they moved their cats to a friend's house while they clean. The rescue did confirm the surrender of 1 hamster, 14 female rats (some pregnant), 9 male rats, and 2 guinea pigs. They reported that several of the rats have respiratory infections, are underweight, or have loose stool.

There is a cycle of unsafe living conditions here. I know from working in this field that getting a house clean after being urine-soaked is a difficult task. It permeates deeply. I can say the owners have taken action to reduce the fire risk of the house. That is fantastic, but it does not take care of all the situation. My recommendation is to grant to September 30 or that the property be vacated.

Councilmember Johnson: Can you provide an update related to the tall grass and weeds and the garbage bags? When will the Department of Safety and Inspections be able to conduct their follow-up?

Moermond: They will be going to inspect tomorrow, based on when we spoke this afternoon.

Johnson: Has there been any disciplinary action with it not being done by now?

Moermond: We have avoided any Human Resources issues, since we are not the administrative, but rather the legislative branch. I have a practice of sharing with the administration what our experience has been, so that can be used—

Johnson: There isn't a fee, or something being assessed right now for this? We don't know if those items have been done or not?

Moermond: We do not know whether those two things have been done or not. We'll get testimony on that. It was reported in the September 17 hearing that those things were underway. I assume that they have been taken care of.

Johnson: Okay. Switching to the Order to Vacate, could you clarify your recommendation?

Moermond: My recommendation is that the unsafe conditions that create an uninhabitable circumstance be addressed by Monday, and that there be an inspection on Monday to make a determination on whether or not those conditions have been addressed. If they have been addressed to the satisfaction of the inspectors (the air quality addressed, the floors sufficiently cleaned), the Vacate Order is to be converted to a Correction Order. If they find that those items have not been adequately addressed, then the vacate date would become effective on the property.

Donald Hinrichs: I'm the owner. Next to me is my wife, Tischauna. When we first got the notice of an inspection, she was sick with COVID, so we moved it to September 3. We have been working the last two weeks. We have pulled up the carpet and been using enzyme destroyer. We have a dumpster coming from HomeLine. Due to lack of drivers they can't get one to us until October 1. We have been putting the stuff on the curb until the dumpster gets to us. We are working with a company called SteraClean, who will give us a cleaning estimate for anything we can't do ourselves. As for the animals, we have gotten rid of all of our rescues and stopped taking in new ones. All we're doing as a rescue now is posting them to our webpage and getting them in touch with people who can adopt them. They do not come to our house anymore. We'll arrange transportation for them, but we are no longer taking in animals. About a year ago when we first got the 501c-3, Animal Control came out and

*inspected all our cages and never told us anything about a limit. Had we known, we wouldn't be running it out of our house. We didn't know that we couldn't have more than 1 ferret or anything like that.*

*Tischauna Hinrichs: We have pictures too.*

*D. Hinrichs: On the projector you can see the front lawn and the sidewalk. We still have to trim the backyard. My brother-in-law is coming with equipment. We put up smoke detectors and carbon monoxide detectors. In another photo you can see the enzyme destroyer we are using. We have cleaned the floors and removed carpet in appropriate places. Also pictured is the cleaned kitchen and stairs. We took the bed out of the basement and put it upstairs. In another picture here is stuff we're waiting on the dumpster for.*

*T. Hinrichs: I want to share a few before and after pictures as well. Pictured is the room that had the guinea pigs and the hedgehog. After we moved everyone out, this is where the bed is now. Pictured now is where the rats were kept, and then what we have left. Another photo shows the living room now that we have lifted out the carpet, cleaned, and moved the couch.*

*D. Hinrichs: We would just like time to move stuff from the curb to the dumpster, and to remove the carpet and get it treated. We can address the pet issue as well. We talked with Animal Control when we first started, and they never said anything about not being able to do the rescue out of the house. Had we known, we wouldn't have done it. Our hearts are in the right place and were overdoing our brains. I apologize.*

*Jalali: We appreciate these updates. It sounds like you're asking for time to keep working.*

*Hinrichs: We're hammering away at it. We brought over friends to help and they noticed a vast difference. They're not smelling any animal-related smells anymore. This has been the most embarrassing thing in my life. I can't sleep. I can't eat. Someone told us to stop thinking about the animals and start thinking about ourselves, and that's what we have to do.*

*Councilmember Johnson moved to close the public hearing. Approved 7-0.*

*Johnson: DSI is going out tomorrow for the weeds and bushes. Is that done?*

*Hinrichs: Yes, my brother is coming to deal with the back.*

*Johnson: Typically, I would offer a continuation of conversation with my Legislative Aide. She is out today, but will be here tomorrow, and there will be future conversations with our office as well. The question we have here is whether or not to have a vacate order that gets in place on Monday if issues cannot be resolved. What I have heard from you is a request for time. What is realistic for you as a timeline? I'm hearing an urgency from Moermond and want to hear from you.*

*Hinrichs: The dumpster comes on October 1 and is here through October 8. HomeLine said that if we needed more than one they could send another one. I don't know how long that takes, but I don't think we should be able to fill more than one dumpster.*

*Johnson: Thank you so much for that. Moermond, what are the implications of a one-week layover?*

*Moermond: Council has closed the public hearing, so a 1-week layover would make this a discussion item on next week's agenda. You would, if you wish, get a progress report on where things are at. Alternatively, you could adopt a resolution today and, if you felt there was a substantial change in conditions after Monday's inspection, recall and reconsider this item next week.*

*Johnson: I'm going to move a 1-week layover, but I genuinely want to see the DSI inspections for a progress report. I intend to make a decision next week based on that progress.*

*Jalali: To understand the recommendation, if we lay it over now, what work happens between now and next week?*

*Moermond: Currently, there is an inspection due on exterior conditions. There would otherwise have been an inspection on Monday, September 30th as to whether or not the property would continue to be considered as uninhabitable. With the Council doing a layover of one week, that inspection would not necessarily happen. You could require DSI to schedule an inspection on a particular day, and have that information be given to you prior to your meeting next week.*

*Johnson: I ask that an inspection happen on September 30 or October 1, so we have that info for next week's meeting.*

*Moermond: I can add that to the resolution.*

*Jalali: I support that.*

*Councilmember Nelsie Yang: I support that as well. Do they risk having a summary abatement order with everything being moved outside until the dumpster comes?*

*Moermond: I can communicate to DSI staff that if they do end up writing a summary abatement order, that they grant through the end of next week to remove the items into a dumpster.*

*Yang: Please do that.*

*Jalali: To summarize what I'm understanding, the motion is to lay this over. DSI staff will work to schedule an inspection on Monday, September 30, to check progress. We will hear about this in a week and will measure where progress is at to ensure safety for everyone involved. Does that makes sense with your motion, Johnson?*

*Johnson: Yes.*

*Councilmember Bowie: Does DSI regulate animal rescues? Is that a commercial use? How would someone conduct an animal rescue?*

*Moermond: I would distinguish between providing foster care to a rescue organization and running an actual rescue organization. If it is operating as a business, whether it is making a profit or not, it needs to be zoned and licensed appropriately. If there need to be permits based on the number of animals being held there, then that needs to happen.*

*Bowie: Has the owner gone through any licensing process?*

*Moermond: They have reported going through a 501c-3 nonprofit process, and they have shared prior conversations with DSI that indicate a misunderstanding on what*

*the requirements are. I think information on fostering is the most important thing. Most people don't operate as a full rescue.*

Written public comment on public hearing items can be submitted to [Contact-Council@ci.stpaul.mn.us](mailto:Contact-Council@ci.stpaul.mn.us), [CouncilHearing@ci.stpaul.mn.us](mailto:CouncilHearing@ci.stpaul.mn.us), or by voicemail at 651-266-6805. Live testimony will be taken in person in the Council Chambers, and by telephone by registering to speak by noon on the day before the meeting. The registration link is located on the City Council website at [www.stpaul.gov/council](http://www.stpaul.gov/council) or <https://forms.office.com/g/TD3xN7WHy5>.

#### **Council Meeting Information**

The City Council is paperless which saves the environment and reduces expenses. The agendas and Council files are all available on the Web (see below). Council members use mobile devices to review the files during the meeting. Using a mobile device greatly reduces costs since most agendas, including the documents attached to files, are over 1000 pages when printed.

#### **Web**

Meetings are available on the Council's website. Email notification and web feeds (RSS) of newly released minutes, agendas, and meetings are available by subscription. Visit [www.stpaul.gov/council](http://www.stpaul.gov/council) for meeting videos and updated copies of the agendas, minutes, and supporting documents.

#### **Cable**

Meetings are live on St Paul Channel 18 and replayed at various times. Check your local listings.
