Hello: I would like to add to the record the following pictures taken just yesterday, Sunday, April 2nd. Please remember that this is the garbage situation before the 150 possible additional patrons on the new patio! And since the patio was built with absolutely no set back, I don't see how they can fit more bins on their property. We are very concerned about rodent control at this point. The first picture was on our property. The owner said she would have employees "patrolling" the alley, this hasn't happened as we have had to ask them twice to remove trash and food from our property. Thank you, Bob and Mary Tipping
